

REMARKS:

Applicant has carefully considered the Office Action mailed April 1, 2004.

Reconsideration of the application in view of this amendment in response thereto is respectfully requested.

The drawings were objected to because reference character 112 was missing. Accordingly, enclosed herewith is a replacement sheet of drawings showing the addition of element number 112 to Fig. 2. Also enclosed herewith is a copy of the originally filed drawings showing the change thereto in red. Applicant urges that the corrected drawings add no new matter.

The specification was objected to because of the use of a trademarked term. The title, abstract and specification have been amended changing the trademarked term to a generic equivalent suggested by the Examiner.

Claim 2 was rejected under 35 U.S.C. § 102(b) as being anticipated by Boyles (U.S. Patent No. 5,467,584). Claim 2 has been cancelled without prejudice or disclaimer.

It is noted with appreciation that claim 1 is allowable as originally submitted.

The Examiner is invited to contact the undersigned at the below-listed telephone number if it is felt that the prosecution of this application may be expedited thereby.
